Construction Planner

Description

Construction Planner – Precast Concrete Specialist – Middle East

Six figure Tax-Free basic + generous living allowance!

Our client, a renowned specialist in the **precast concrete construction industry**, is seeking an experienced **Planner** to join their dynamic team in the Middle East. This is an exciting opportunity to work on high-profile projects across commercial, residential, and infrastructure sectors.

Key Responsibilities:

- Develop, manage, and update detailed project schedules for precast concrete production, delivery, and installation.
- Coordinate with design, production, and site teams to ensure timely project delivery.
- Monitor project progress, identify delays, and propose mitigation strategies.
- Analyse resource requirements and optimise allocation across projects.
- Prepare reports and presentations for stakeholders, providing clear project status updates.

Requirements:

- Degree in Engineering, Construction Management, or a related field.
- Proven experience in project planning within the precast concrete or construction industry.
- Proficiency in **Primavera P6** or similar project planning software.
- Strong understanding of precast production and installation processes.
- Excellent communication and problem-solving skills.
- Previous experience in the UAE or GCC market is an advantage.

How to Apply:

Upload your CV below and cover letter **quoting the reference: JP969 PP-Precast**
