### Estimator

#### Description

**Estimator | Specialist Contractor | Construction | London**

**Speyhawk Ltd are recruiting for an Estimator for a Specialist Contractor in London**

***Up to £60,000 + Travel, health, pension and bonus***

This highly successful specialist contractor offers a supply and installation service to Architects, Developers and end users alike. Working within London's high end residential and blue-chip commercial markets.

Following a sustained increase in demand for their highly innovative product range, a new appointment has been created for a standalone Estimator to support their commercial team.

You could be from either a Surveying or Estimating background where you have been involved in the preparation of estimates and proposals for high quality fit out works in the region of £500,000 to £5million in value.

You will already have gained valuable experience, working for a specialist contractor or major contractor on associated fit out works and now looking to specialise. Previous experience within the fit out, joinery or natural stone market would be a distinct advantage.

Your services are urgently required to help fulfil the demand and in return you will be offered a defined career path and the financial recognition a privately owned and operated business can offer.

Please apply below or [upload your CV](#) in strict confidence through Speyhawk's website, quoting the reference: Estimator JP941
